

## Transnational Conference

### Scandria®Alliance and TEN-T Corridors Joining Forces for Smart and Efficient Transport

Dear Madame or Sir,

On behalf of the Joint Spatial Planning Department Berlin-Brandenburg, KombiConsult GmbH would like to invite you to the Transnational Conference – Scandria®Alliance and TEN-T Corridors Joining Forces for Smart and Efficient Transport, scheduled **in Berlin from Thursday, 26 October 2017, starting at 14:00 until 27 October 2017, ending at 14:30.**

The Scandria® initiative unites regions and nodes along the TEN-T Scandinavian Mediterranean Corridor for innovative, cross-sector and multi-level governing co-operation. The conference is jointly arranged with meetings of the NSB CoRe and TENTacle projects. It is organized as an open and focussed discussion between politicians and high-level professionals, who are involved with spatial and transport planning, trans-European transport networks, decarbonisation of transport and development of multimodality for both passenger and freight.

On day 1, the politicians will exchange their arguments and dialogue with the audience. Mr. Pat Cox and several politicians announced their participation at the Scandria®2Act conference to support us with the EU position and political needs. Ms. Catherine Trautmann also announced her participation in the NSBCoRe transnational roundtable meeting, which will take place on the same site. Day 2 will present the state of the three projects and the outlook of professional requirements for the future co-operation.

You are kindly requested to confirm your participation by email to Mr. Samer Ghandour ([sghandour@kombiconsult.com](mailto:sghandour@kombiconsult.com)) as soon as possible by sending the completed registration form (see attachment). Please inform us in case of any particular need resulting from a disability, so that we may take it into account when organising this meeting.

Two transnational roundtables of our sister projects, namely, NSBCoRe and TENTacle Project, are scheduled in parallel on Thursday, October 26, 2017 between 09:00 and 12:00. All guests and project partners are welcomed at the Scandria®2Act conference, too.

Sincerely,

KombiConsult GmbH

i.A. Samer Ghandour
